Cartea funciară și geometria au regăsite în ANCPI-Eterra pentru un număr de 3767 de imobile care sunt sau se intersectează cu zonele de intravilan.

Au fost eliminate 29 de imobile care erau compuse din parcele cu mențiunea de **extravilan**.

Au fost efectuate proceduri de verificare a înscrierilor din Cărțile Funciara, nu au fost identificate mențiuni referitoare la **spațiile verzi**, motiv pentru care terenurile proprietate privată nu vor fi incluse în verificare, deoarece pentru includerea lor sunt necesare procedurile de expropriere.

După eliminarea terenurilor proprietate privată au rămas în analiză următoarele imobile:
